Curriculum Overview subject to change.

**Over the course of four years, students build a set of skills and knowledge to support life-long flourishing. Each grade level will focus on the following throughout the year:

- 9th Grade Foundations: Study skills, technology skills, public speaking, and a survey of personal management skills.
- 10th Grade Service: Service learning at local partner organizations.
- 11th Grade Life Skills: Personal finance, college/career readiness, and a survey of household maintenance skills.
- 12th Grade Independent: Work with high school administration to create an individual plan for continued personal development, through options such as an online dual enrollment college course, or a vocational internship, either with an Ambleside community member or through a personal connection.
